REMARKS

The claims have been amended to recite a basestock with a Viscosity Index (VI) of about 140 or greater and pour point less than -20°C and specific additives. Support can be found in Paragraph 47, 16 and Table 5.

The prior art does not teach the specific claim limitation of a base stock with a VI greater than 140 and a pour point less than -20°C and the specific claimed additives.

Respectfully submitted,

Gary P. Katz

Attorney for Applicant(s)
